

Course Evaluation // Middle East Security Issues: Piracy, Terrorism, & Resources FA 15

Evaluations are completed online on a voluntary basis when students check their grades at the end of each academic term. The completion rate for the evaluation was 50 percent. This completion rate indicates that the results are marginally reliable. Students respond to a series of seventeen questions assessing their professor and the quality of instruction provided. My quality of instructor and quality of instruction scores exceeded UNG averages. This was accomplished while administering a course that was considered challenging by a nearly two-thirds of the class.
